- 20' / 40' FCL export packing
- MSDS, CO & docs support
- Nhava Sheva / Mundra dispatch
- Private-label programs

Frequently Asked Questions

Q. Are you a BOPP self adhesive tape manufacturer in India?

Yes — Wellpack Polyplast has been a BOPP self adhesive tape manufacturer since 2014, headquartered at GIDC Naroda, Ahmedabad, Gujarat. We manufacture plain and printed BOPP packing tapes in 12–288 mm widths and 36–55 µm, with coating, printing and slitting done entirely in-house at our Patan facility.

Q. What is the difference between plain and printed BOPP tape?

Plain BOPP tape comes in transparent, brown/tan or coloured film with no printing — the standard carton-sealing workhorse. Printed BOPP tape carries your custom logo, brand name or handling message (up to 6 colours) — turning every carton into a brand touchpoint and adding tamper evidence.

Q. What sizes of BOPP tape do you manufacture?

We manufacture BOPP self adhesive tapes from 12 mm to 288 mm width, 5 m to 1000 m length, in 36–55 µm thickness. Standard SKUs include 48 mm and 72 mm; custom widths, lengths and core sizes are available on request.

Q. Do you export BOPP self adhesive tapes?

Yes — we export BOPP tapes to 18+ countries including the UK, USA, EU, UAE, Saudi Arabia, Australia and multiple African markets. Standard export MOQ is 1 × 20' FCL with full documentation support.
