Key Features

Up to 6-Colour Rotogravure Printing

Bright, precise brand impressions

In-house rotogravure printing line prints up to 6 colours with tight registration — your logo, artwork or safety message appears sharp and vivid on every metre. Rotogravure delivers superior ink density and colour depth for premium branded packaging.

- Up to 6 colours per pass
- Tight print registration
- Solid, halftone & line art
- Custom Pantone / brand colour matching

Custom Design & Artwork

Full-service artwork assistance

Send us your logo or artwork — our team will prepare print-ready plates, colour proofs and pre-production samples for your approval before mass production.

- Free artwork setup for standard designs
- Pre-production sample rolls
- Colour proof approval
- Design assistance on request

All Widths & Lengths

From 12 mm to 288 mm

12 mm, 18 mm, 24 mm, 36 mm, 48 mm, 72 mm, 100 mm and up to 288 mm — printed to your exact SKU spec. Slit clean from our own printed jumbo rolls.

- 12 – 288 mm width
- 5 m – 1000 m length
- 36 – 55 µm thickness
- Any core diameter

Brand-Level Consistency

Same colour across every batch

Rigorous QC on colour density, adhesion and print registration — your printed tape looks identical order after order, batch after batch.

- Batch colour consistency
- Adhesion QC per roll
- Print sharpness inspection
- ISO quality standards

Frequently Asked Questions

Q. Do you print custom logos on BOPP packaging tape?

Yes — Wellpack Polyplast is a printed packaging tape manufacturer with an in-house rotogravure printing line. We print custom logos, brand names, safety messaging and promotional artwork in up to 6 colours on BOPP self-adhesive tapes from 12 mm to 288 mm width. Rotogravure delivers superior ink density and colour depth for premium branded packaging.

Q. How many colours can you print on tape?

Up to 6 colours on our rotogravure printing line, including custom Pantone / brand colour matching. Solid areas, halftones and fine line art are all supported with excellent ink laydown.

Q. What is the MOQ for printed packaging tape?

MOQ depends on tape width and print design complexity. For most standard widths (48 mm / 72 mm) with a 1–3 colour logo, MOQ starts from a few hundred rolls. Please contact our sales team with your artwork for an exact quote.

Q. Do you provide artwork / design assistance?

Yes — our team will prepare print-ready plates from your logo file, share a colour proof for approval and produce a pre-production sample roll before mass production.

Request a quote: <https://bopptapemanufacturers.com/products/printed-packaging-tape> — share your specs and our export sales team will respond within 24 hours.
